ABOUT ME

BS Information Technology student with a strong passion for Full Stack Web Development and modern web technologies. Skilled in HTML, CSS, JavaScript, Bootstrap, PHP, Node.js, and React.js, with hands-on experience building responsive, user-friendly, and scalable web applications from front-end interfaces to back-end logic. A fast, dedicated learner with strong problem-solving ability, excellent teamwork and communication skills, and a proven track record of delivering clean, well-structured projects. Actively seeking an internship opportunity to bring immediate value to a development team and grow into a high-performing full stack developer.

EXPERIENCE

ACADEMIC PROJECTS

- Developed a responsive full stack personal portfolio website using HTML, CSS, JavaScript, and Bootstrap.
- Designed user-friendly, mobile-first layouts with clean, scalable code architecture.
- Applied modern UI principles and best coding practices across front-end and back-end components.

Full Stack Landing Page Development

- Built responsive, high-converting landing pages using HTML, CSS, Bootstrap, and JavaScript.
- Focused on layout structure, typography, performance, and overall user experience.
- Optimized pages for seamless display across all screen sizes and devices.

Full Stack Practice Projects

- Built multiple full stack web interfaces using HTML, CSS, JavaScript, Bootstrap, PHP, Node.js, and React.js.
- Practiced responsive layouts, navigation menus, forms, and interactive components with front-end and back-end integration.
- Strengthened understanding of HTML structure, CSS styling, JavaScript logic, and server-side fundamentals.
