FSC Pre Engineering

Govt. Post Graduate College Temargara

Marks 78%

Apr, 2015 - Sep, 2017

Temargara

PROJECTS (my portfolio for more details <https://rahman-ullah-portfolio.vercel.app/>)

Real Estate Management System

Crafted and implemented a web application aimed at enhancing the efficiency of real estate management. The application facilitates streamlined tasks such as managing property listings, payment plans, and financial reporting. Developed various modules including HRM, land sale and purchase. Employed Laravel and Vue.js, along with a MySQL database and Bootstrap for responsive design.

ERP System

As a vital developer in an ERP project, I played a crucial role in shaping and refining essential modules, including Inventory Management, System Integration, and Reporting. Utilizing my coding proficiency, I intricately designed and implemented the Inventory Management module, streamlining stock control and improving supply chain efficiency.

Online Store

Led the development of an e-commerce platform from ideation to deployment, employing the Laravel framework and MySQL database. Engineered bespoke features, including product customization, dynamic pricing, and seamless integration with third-party payment gateways. Ensured a responsive design and optimized site performance to enhance user experience. Collaborated closely with designers, copywriters, and marketing professionals throughout the project.
